

7 Steps

to Integrating Sales Tax with Your S/4HANA Migration Journey

Migrating to SAP S/4HANA is a big and complicated step for your organization. It also represents a tremendous opportunity to update and align your tax strategy to meet the challenges of modern sales tax.

These seven steps can help you better align your sales tax strategy with your SAP migration.

Step 1:

Select a target system that works for your organization. Public. Private. Prem.

Step 2:

Determine a migration path and a systems implementer.

Step 3:

Evaluate your existing sales tax solution to determine if you will need an upgrade.

Step 4:

Define the geographic footprint of your new solution. Is a consolidation required?

Step 5:

Plan how to take advantage of new features such as Central Finance and Central Billing.

Step 6:

What customizations have been made to your existing system specific to sales tax? Will they be migrated?

Step 7:

Analyze how your S/4HANA migration impacts your sales tax filing and remittance process.

Conclusion

Now is the time for sales tax. Waiting can lead to higher costs, increased workloads and more system misalignments. Take charge of your tax strategy today by integrating your sales tax management solutions with your S/4HANA implementation.
