

SAP INTEGRATED SELF-SERVICE EIPP

# Delego PayCenter

Simplified and secure customer self-service, integrated seamlessly with SAP

Accelerate your collection cycles and reduce the time and cost spent managing, tracking and collecting unpaid invoices by providing your customers with a convenient, cloud-based, self-service portal to view and pay their invoices and access their transaction history.

Unlike other Electronic Invoice Presentation and Payment (EIPP) systems that synchronize to your SAP system with a series of file uploads and downloads, Delego PayCenter utilizes our proprietary SAP integration to present and update customer account data in real-time.

Our PCI DSS certified platform ensures your website and SAP system never handle sensitive payment card data, providing a seamless customer experience with no increase in PCI compliance burden or security risk.

# Delego PayCenter

## KEY FEATURES

### Real-time SAP integration

In today's fast-paced omnichannel environment, maintaining customer account data in real-time is critical to providing a unified experience. Unlike other EIPP systems, Delego PayCenter utilizes our propriety SAP integration to read and upload information in real-time.

### Next generation of payments enabled

Digital payments are expanding, becoming more localized, enabling streamlined experiences and lowering costs. With Delego PayCenter, let your customers choose between traditional credit card, ACH, and a global footprint of alternative payments and digital wallets such as PayPal, Google Pay, Alipay, Apple Pay and many more.

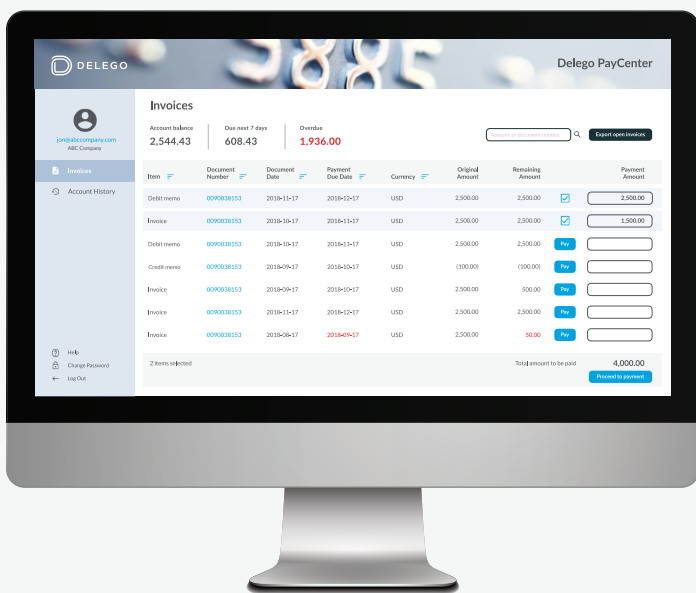

### Rich functionality

Delego PayCenter provides an intuitive and streamlined experience for administrators and users. Integrated user management and security is standard, with Single Sign-On (SSO) integration capabilities available.

Users can view original invoices, make full, partial, or combined payments, easily view account status and payment history, as well as export account data.

### Broad integration footprint

With over 50 processor integrations, Delego PayCenter integrates with more processing platforms than any other solution on the market.

## BENEFITS

- Accelerate your order-to-cash cycle.
- Avoid customer confusion and 'source of truth' issues with real-time SAP integration.
- Improve cash flow management.
- Reduce time, resources and costs managing, tracking, and collecting unpaid invoices.
- Improve customer service and experience by providing quick and convenient ways to pay invoices.
