

# Hitachi Vantara Service Offerings for SAP Solutions

---

## SOLUTION BRIEF

### Maximize the Value of Your SAP Technologies and Investments

SAP has earned a global reputation for solutions that accelerate business success. But developing the operational excellence that leads to great outcomes does not come without challenges. Many organizations lack the skills and staff to build and maintain a cloud environment. They often struggle to keep infrastructure and software components working together smoothly. The manufacturers among them typically fail to gain real-time insights into their operations or are unable to adapt rapidly to emerging conditions. Overall, these organizations tend to lag when it comes to migrating to advanced technologies and new operating models – or they do not know where to start.

In response, Hitachi Vantara has developed focused service offerings designed to optimize every facet of your SAP environment. Hitachi Vantara Service Offerings for SAP Solutions are part of Hitachi's complete SAP portfolio of solutions and services. With over 20 years of experience as a global SAP customer, partner, and advisor, we help add value to your SAP technologies and investments by optimizing the digital core. We unleash the power of the cloud and extend the digital core with machine learning, analytics, and robotic automation – for smart, connected operations. We understand your business challenges and can help simplify your approach to deliver the outcomes you need.

# Choose from a Robust Service Line-Up

**Fast Track Advisory Services for SAP Environments from Hitachi Vantara** helps you move in the right direction on your transformation journey with SAP. Understand your biggest pain points so you can prioritize investment in SAP technology and identify the right opportunities.

**Cloud Modernization for SAP Environments from Hitachi Vantara** helps make the transition to cloud effortless with a bullet-proof migration and/or upgrade plan. Remove complexity and risk by working with an experienced team that specializes in cloud modernization for SAP environments to build and implement your cloud strategy.

**Digital Manufacturing Assessment for SAP Solutions from Hitachi Vantara** helps you assess the costs and rewards of extending your SAP ERP digital core. Gain a third-party perspective of your manufacturing operations, identify solutions to your biggest challenges, and uncover opportunities that create business value.

**Managed Services for SAP Environments from Hitachi Vantara** runs and maintains your SAP environment by acting as an extension of your IT staff. Acquire world-class SAP capabilities without increasing permanent staff, protect your investment in SAP technology, and ensure IT and business alignment.

**Modernization Services for SAP Environments from Hitachi Vantara** helps unlock the power of your data, builds a persuasive business case for change, and guides your organization toward a better way to operate. Identify challenges, explore opportunities, and maximize the value of your SAP investments.
