Motivated IT professional focused on expanding knowledge base within business and technology to maximize value for stakeholders.

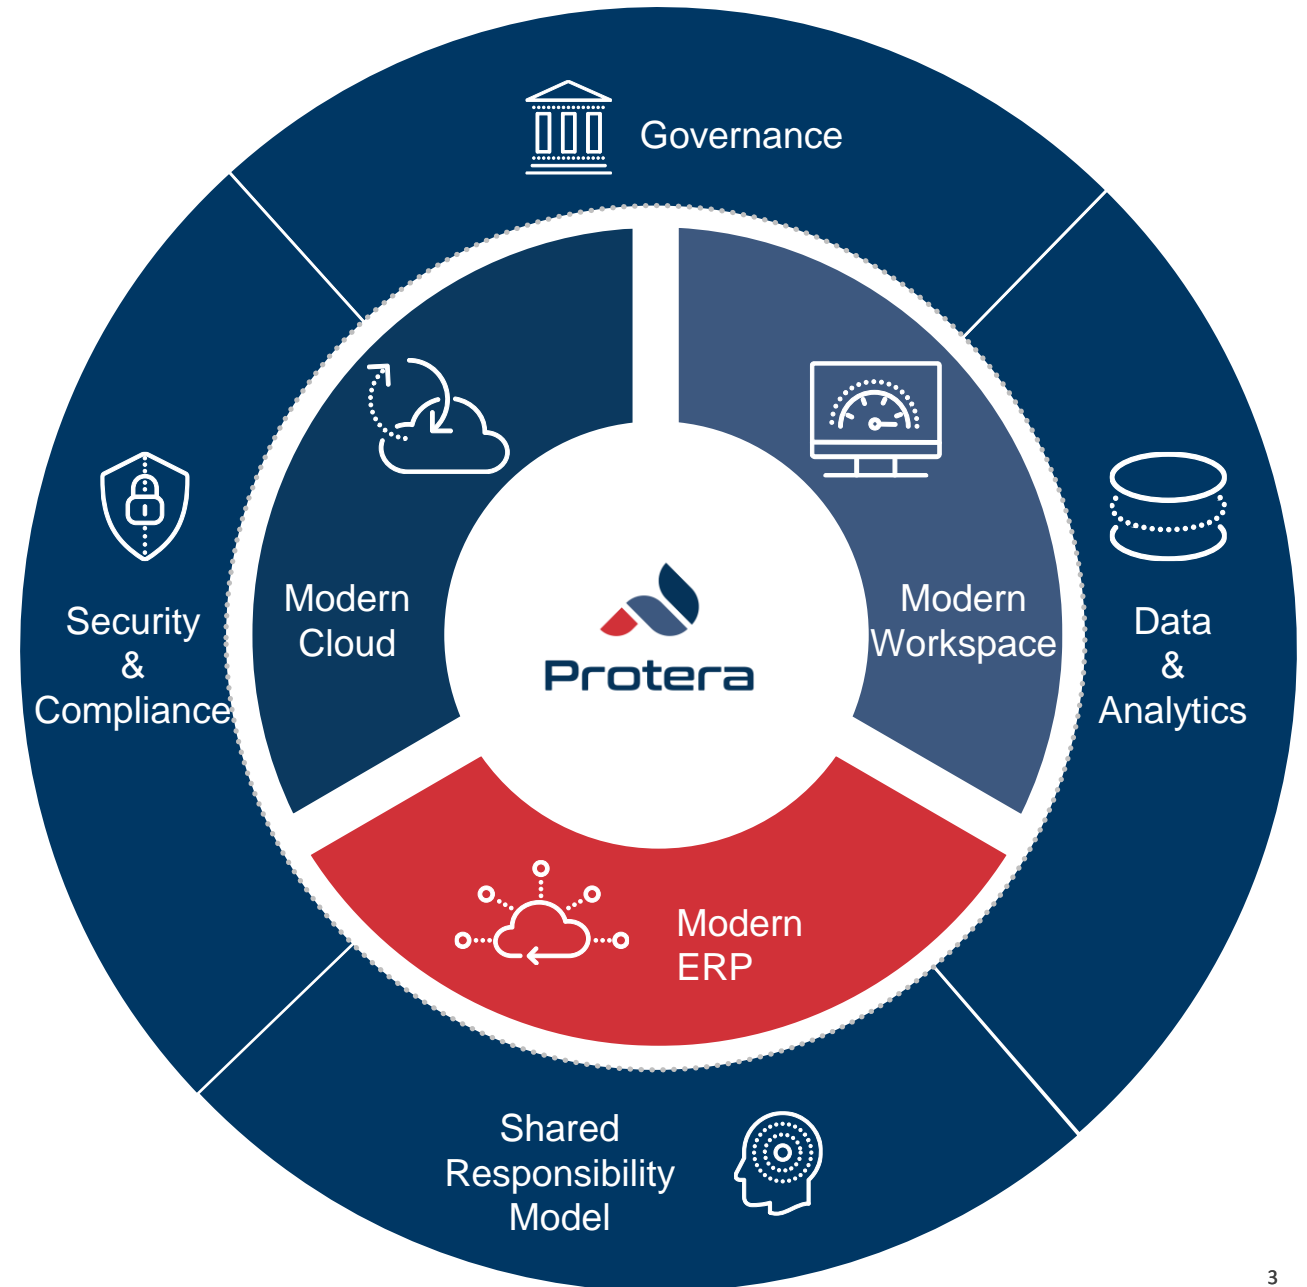

Father, grill enthusiast, sports fan, and lover of all things outdoors.

Adam Mommersteeg
VP Solutions Architecture, Protera

Who is Protera?

We **modernize, optimize, and transform** enterprise workloads with a **proactive** services and support model

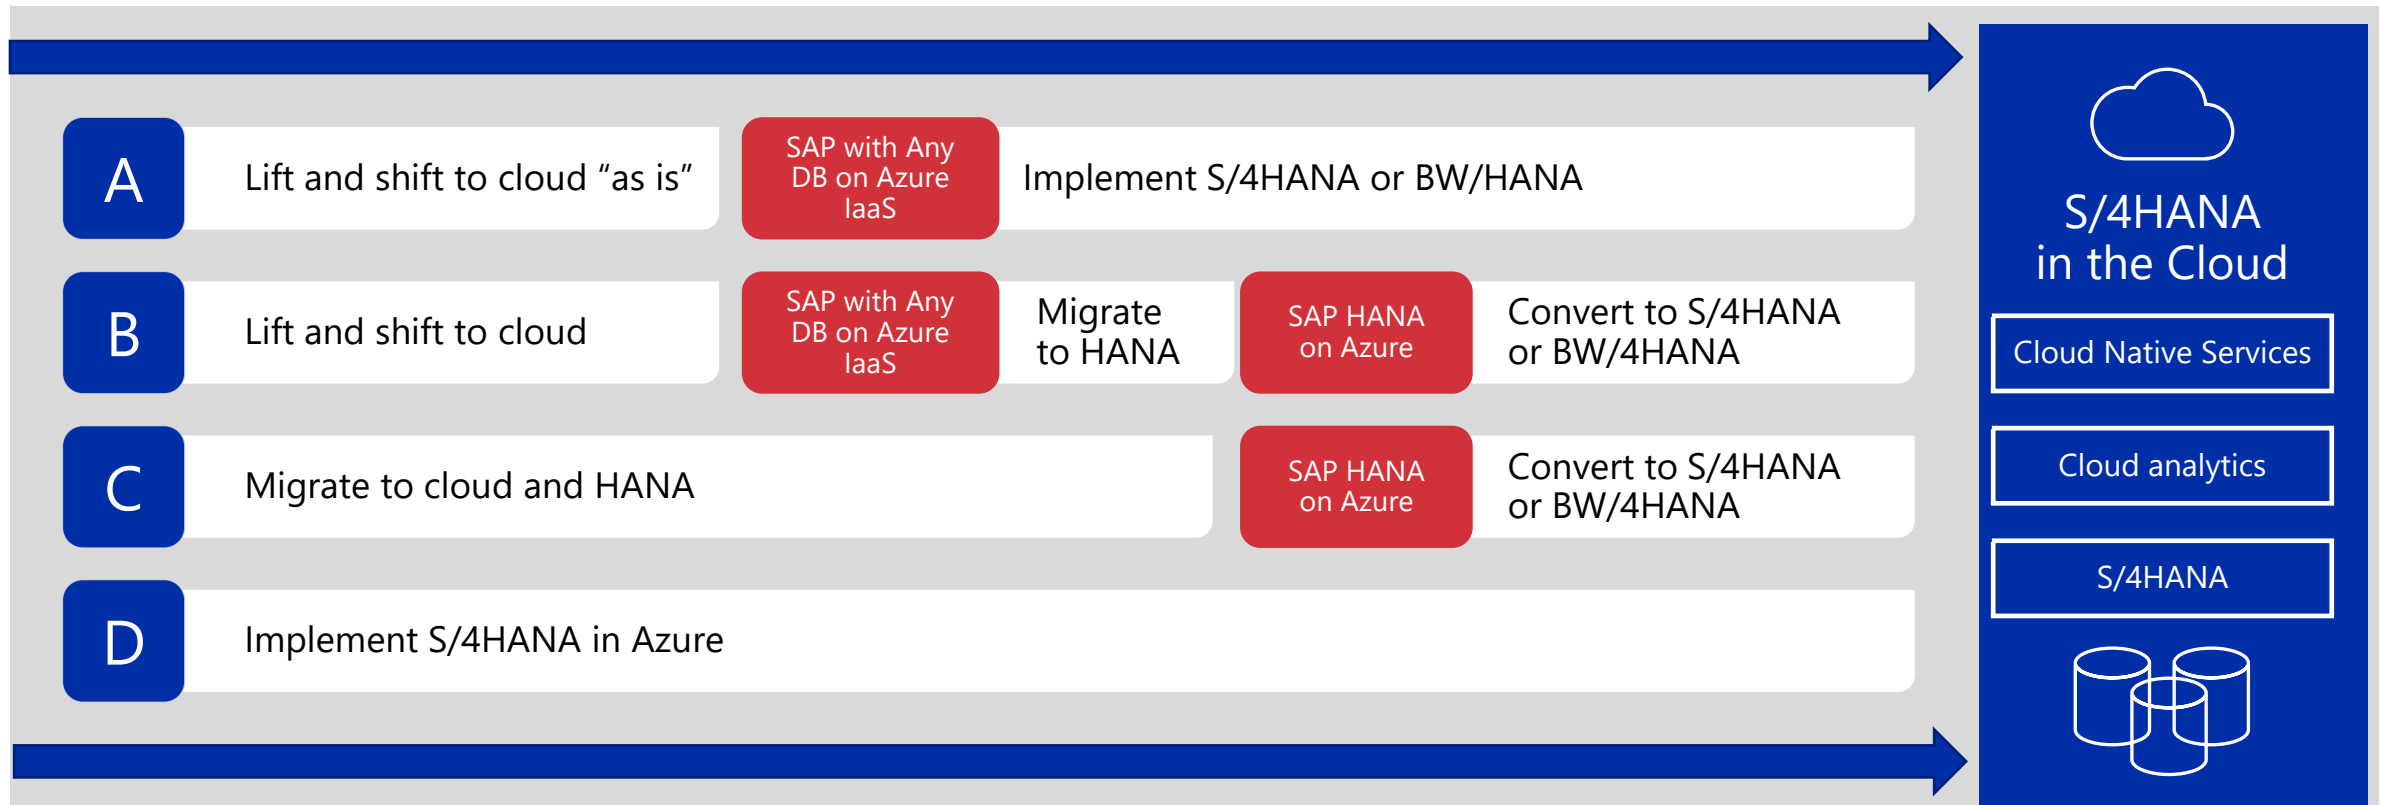

The Cloud Modernization Journey

Migration \neq Modernization

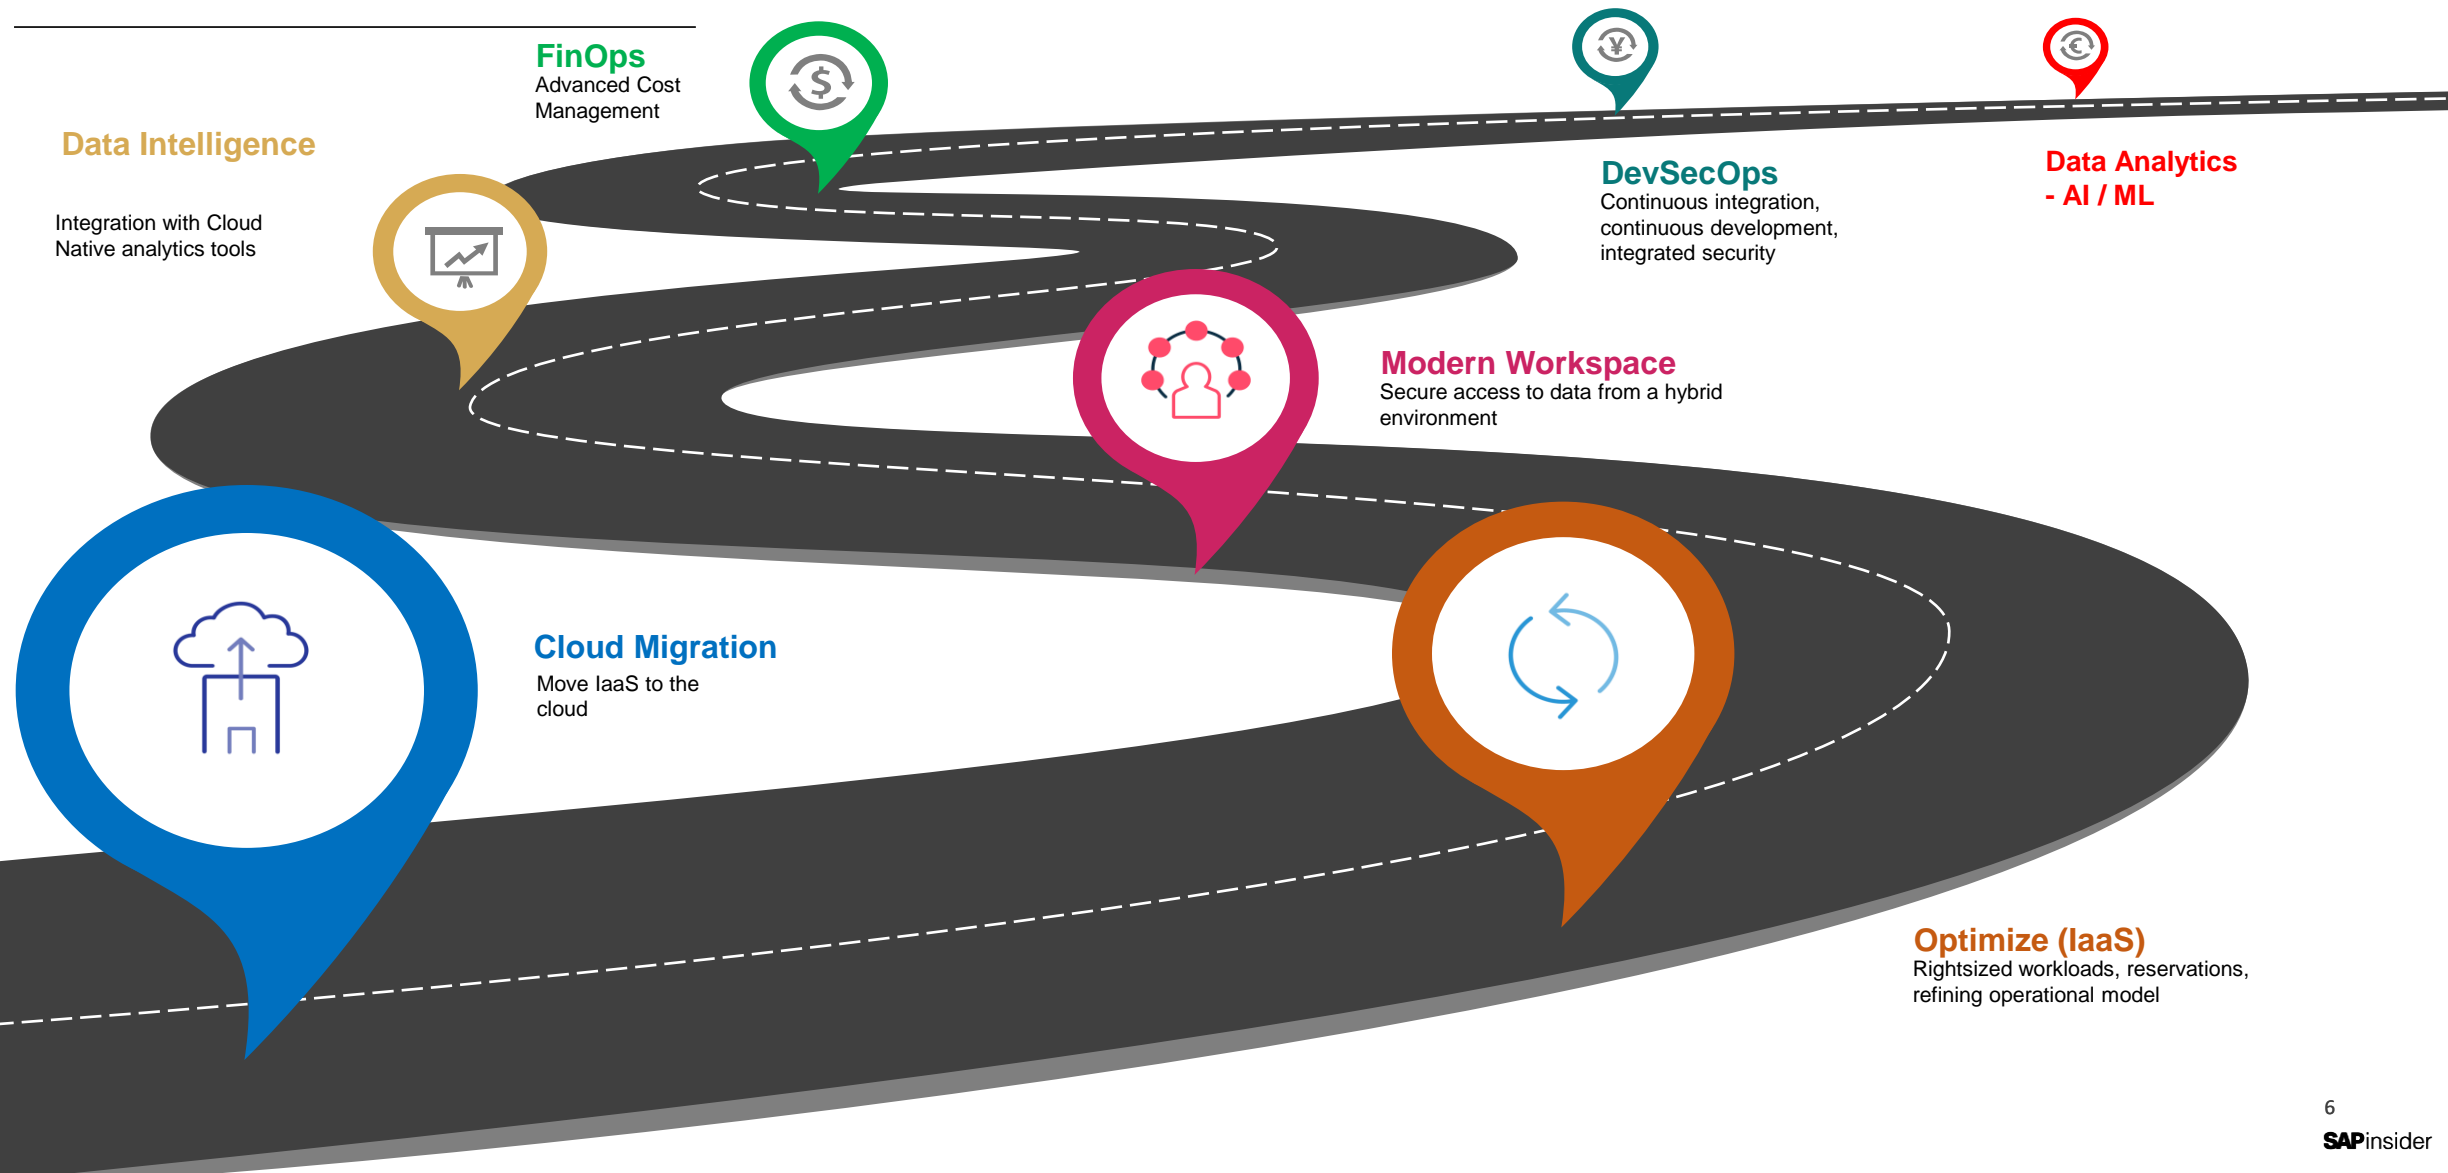

Migration is the beginning of the journey

Different paths for moving SAP to the Cloud

Moving your SAP landscape to the Cloud

Example of Cloud Modernization Roadmap

IT and Business alignment

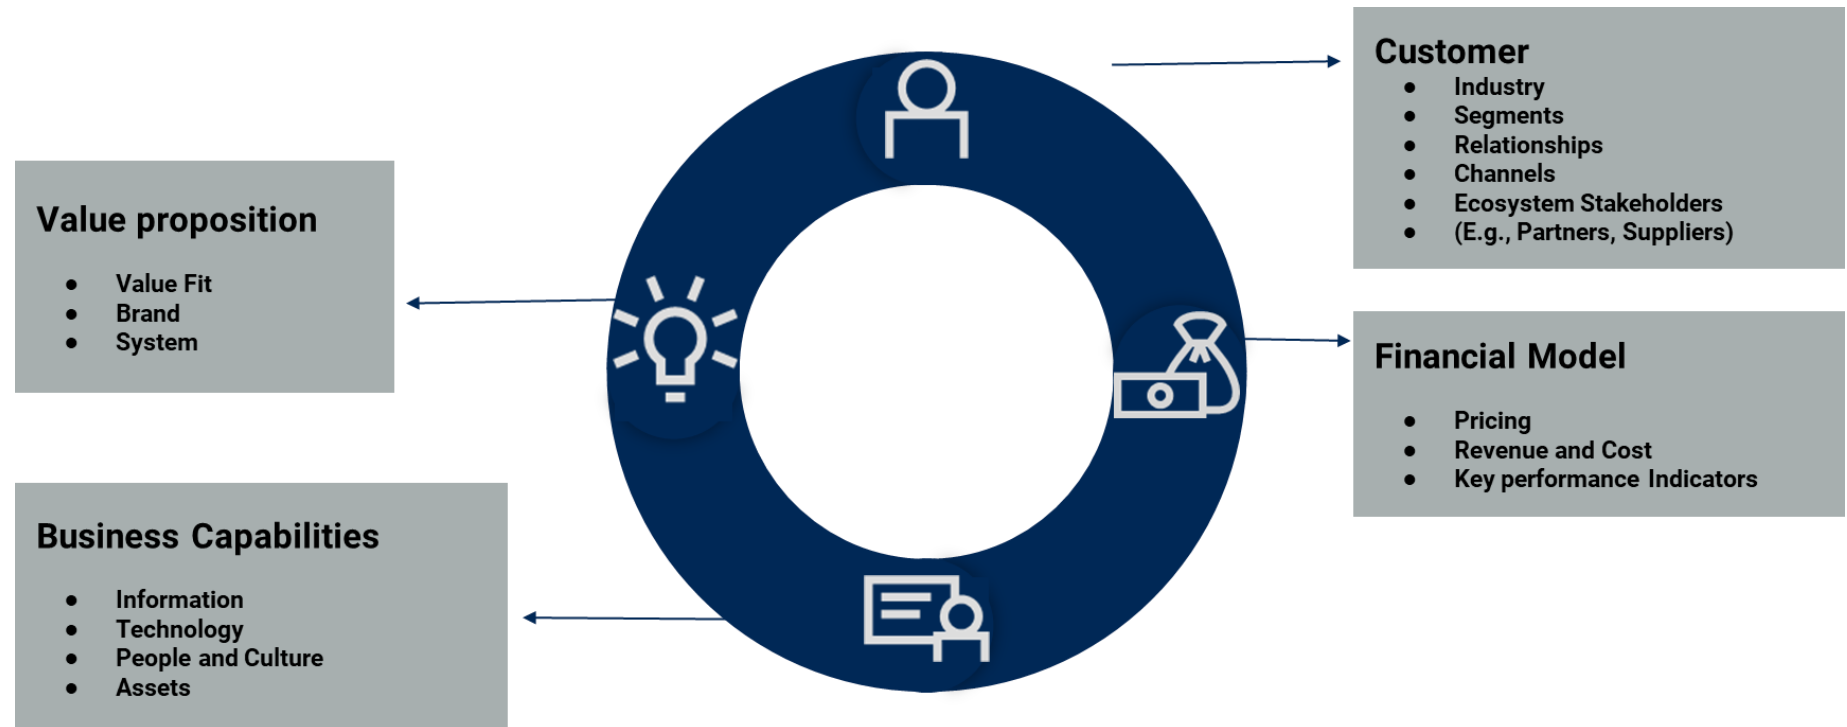

- IT Business Acumen
- FinOps
- Data Driven
- DevOps

94% of organizations say [more business acumen depth required](#) for IT managers to successfully navigate changing business models and technology needs.

[1 in 5 organizations ranked business acumen as the No. 1](#) competency for developing versatile IT talent

IT Business Acumen

- IT moves from supporting the business to **being** the business
- Modern IT management becomes more aligned with driving business outcomes utilizing Cloud, SaaS, and Strategic Service Providers
- Increased importance of understanding risk and impact of business in the event of a security incident

DevOps

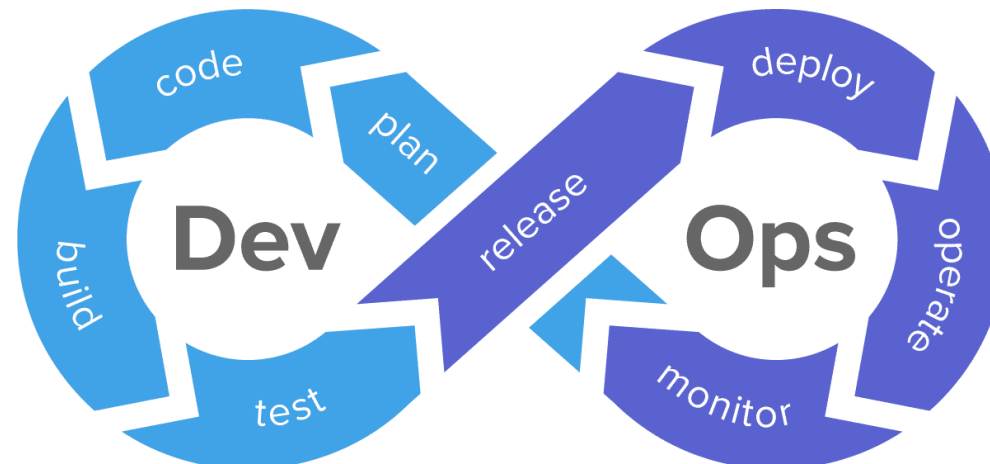

DevOps is designed to deliver a high degree of agility while maintaining a high degree of governance

Start small, pick the right projects

“DevOps emphasizes people, culture and collaboration between development, operations and other stakeholders to improve the delivery of customer value.”

DevOps Technical Outcomes

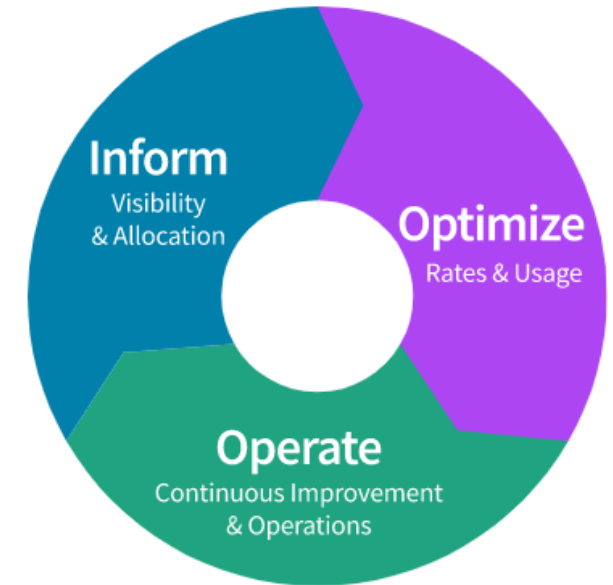

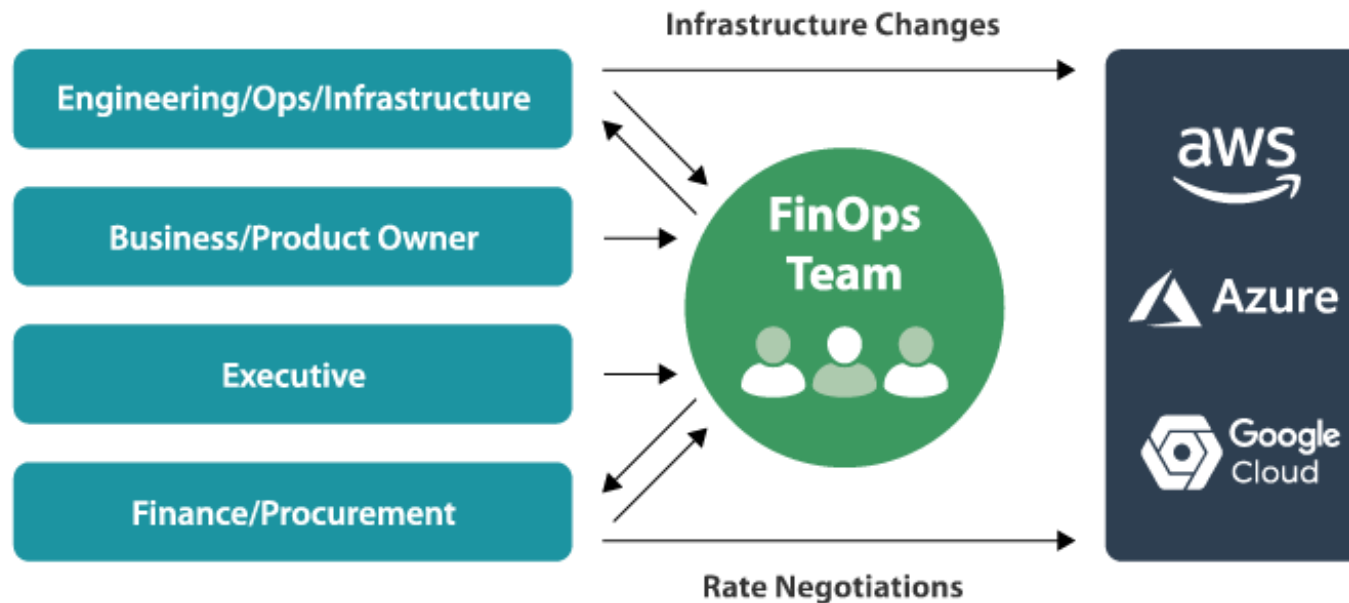

- Governance of code
- Rapid deployment cycle
- Security of platform
- High Availability
- Observability – Reduce MTTR

FinOps

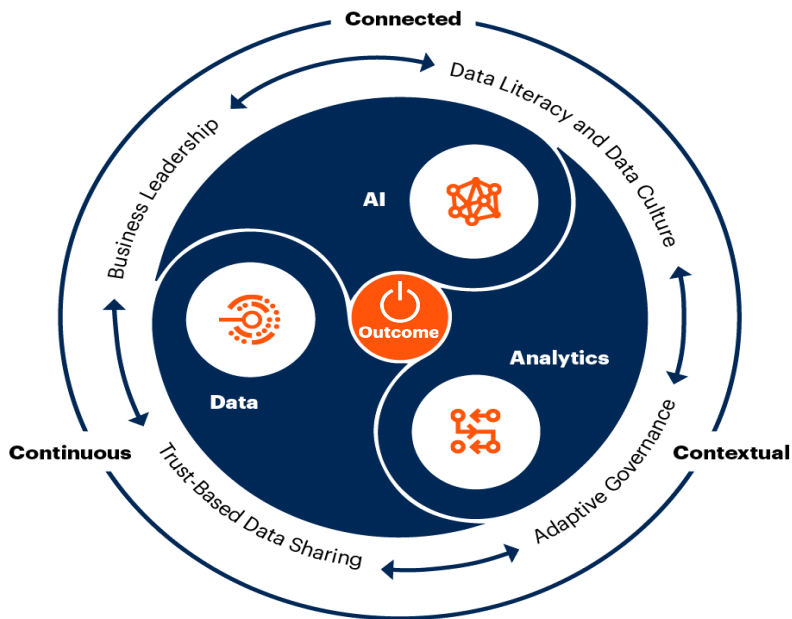

FinOps is an evolving cloud financial management discipline and cultural practice that enables organizations to get maximum business value by helping engineering, finance, technology and business teams to collaborate on data-driven spending decisions.

- “FinOps is a portmanteau of “Finance” and “DevOps” stressing the communications and collaboration business and engineering teams.”
- Cost and chargeback per application

Data is everything

- Cloud offers the ability to leverage advanced data analytics tools.
- Integrate SAP data with additional data sources to provide decision support
- Evolve data analytics strategy to include AI/ML

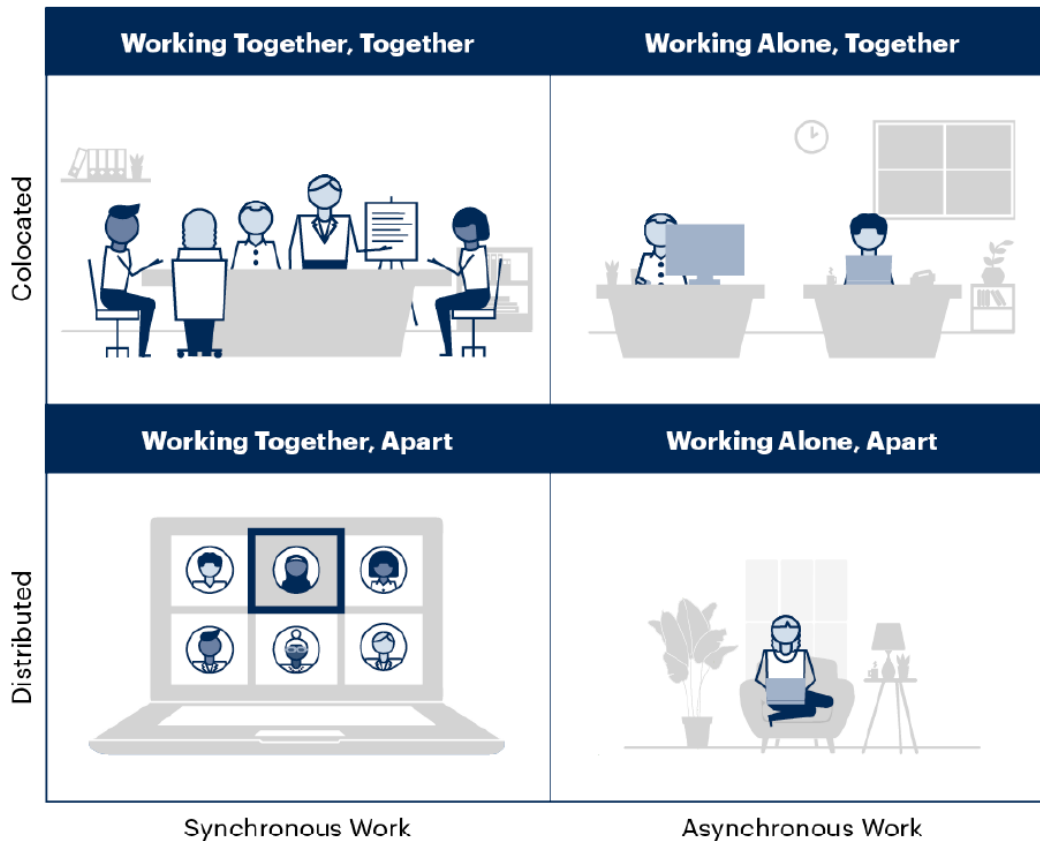

“Through 2025, 80% of organizations seeking to scale digital business will fail because they do not take a modern approach to data and analytics governance.” – Gartner 2022

Modern Work in a distributed workplace

Modernization is a people conversation too.

Collaboration Modes

IT Challenges

- Facilitate collaboration and communication
- Provide secure access to corporate data
- Enable a digital workplace for employees to share in successful outcomes
- Be compliant while being flexible with how employees access data
- Create training opportunities, measure employee results and engagement

Thank you! Any Questions?
