HXM Move with Nexus Suite and simplify your journey to the cloud

Turn months into minutes with unparalleled accuracy. Employee Central and Employee Central Payroll migration with a 100% success rate globally.

Move like lightning

A simpler, faster and more efficient way to operate, migrate and update SAP for HXM and Payroll

Nexus Suite provides a lightning fast, secure and cost effective solution for SAP migrations and enhancement packs, no matter the version or system. With Nexus Suite, businesses will do in a day what would normally take a full team months to complete. Nexus Suite's vast testing environments result in unparalleled accuracy, while accelerating processes and eliminating risk.

HXM Move from SAP On-Premise to SAP cloud payroll.

Migrate to SAP from legacy or non-SAP HCM payroll systems.

De-risk SAP support and enhancement pack changes.

Automate complex reporting and distribution.

The benefits

Enhance all aspects of your SAP Cloud Payroll or SAP On-Premise

Automatic and instantaneous migration

Nexus Suite can do in minutes what usually takes a whole team months. Data is reconciled automatically and the migration is fully transparent.

Unparalleled accuracy and error elimination to de-risk projects

Nexus suite identifies differences in systems and configuration and accommodates for them automatically. Training environments also allow for payroll data comparison before go live to eliminate errors.

Historical data migration to ensure compliance and auditability

Payroll verification is performed across 100% of the population vs only a subset which allows for full analysis and reporting of issues. Historical data migration means you're fully auditable and compliant.

Customised and complex reports, automatically distributed, in minutes

Quickly and easily generate reports without coding or the support of technicians. Your payroll or HR team can pull any metrics they want and generate reports in 5minutes.

No down time or rekeying - so you can be BAU while migrating

Nexus Suite determines configuration items that have been updated or created during the project and includes them in the migration.

Save significantly on costly migrations and implementations

SAP migrations, enhancement and support packs take full teams months to implement and migrate. Nexus Suite costs a fraction of the cost of the project team.

Easily migrate from to SAP Cloud from any HRIS system

Simplify your journey to the cloud turning months into minutes with unparalleled accuracy.

The Nexus Suite solution

Nexus Suite Products

Nexus Move

Everything you need to HXM move. Fast and cost effective comprehensive migration from SAP On-Premise to SAP Employee Central Payroll (EPC) and Employee Central (EC).

HCM Gateway
