SOLUTIONS

MAYFAIRS GROUP

- Largest Independent Suzuki import/distributor in Australia
- Were on ECC outside current version.
- Adapting new direction for evolving Marketplace cumbersome.
- Mainstay was costly Internal development on SAP ABAP and like technologies
- A number of clunky legacy 3rd party systems

SUZUKI

SUNSTATE SANDS

OzPebbles

MAYFAIRS CORPORATE INVESTMENTS

Geo Technical Management Group Pty Ltd

eartheco

LANDSCAPE REVIEW

DalRae Solutions wants to support Mayfairs Corporate Groups move to S/4HANA . Having the right solution and partner alignment, will be key to your success in responding rapidly to market and environmental changes.

Having stable yet predictable technology platforms, to embrace change are vital to drive innovation to meet your business needs.

At DalRae, we believe we can breathe new life into old ways of doing things - reduce complexity, improve agility and enhancing productivity whilst optimising operational costs.

OUTCOMES

- Mayfairs' SAP Environment is stable, including server configuration and sufficient memory capacity for the next few years, providing existing functionality or data retention does not change.
- High number of active dialog users have been provided SAP_ALL and SAP_NEW access in Production.
- A high level of System customisation is present.
- Large number of custom programs not used or barely used in Production throughout the month of September 2022.

The commercials for initial phase to capture the business value and outcome of project.

CLIENT DRIVEN
We bring the best out of SAP by delivering client-driven outcomes

INDUSTRY LEADERSHIP
DalRae Solutions has been named a Leader in SAP User Experience

REDUCING FRICTION
SAP BTP experts in workflow and automation

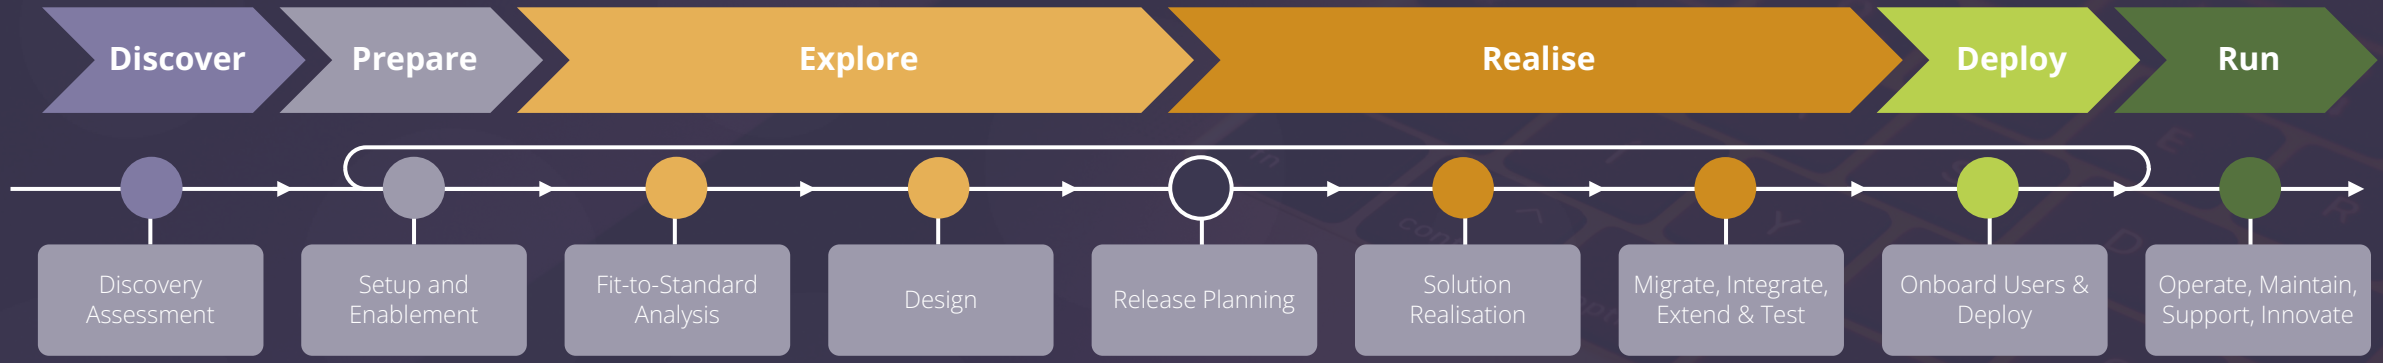
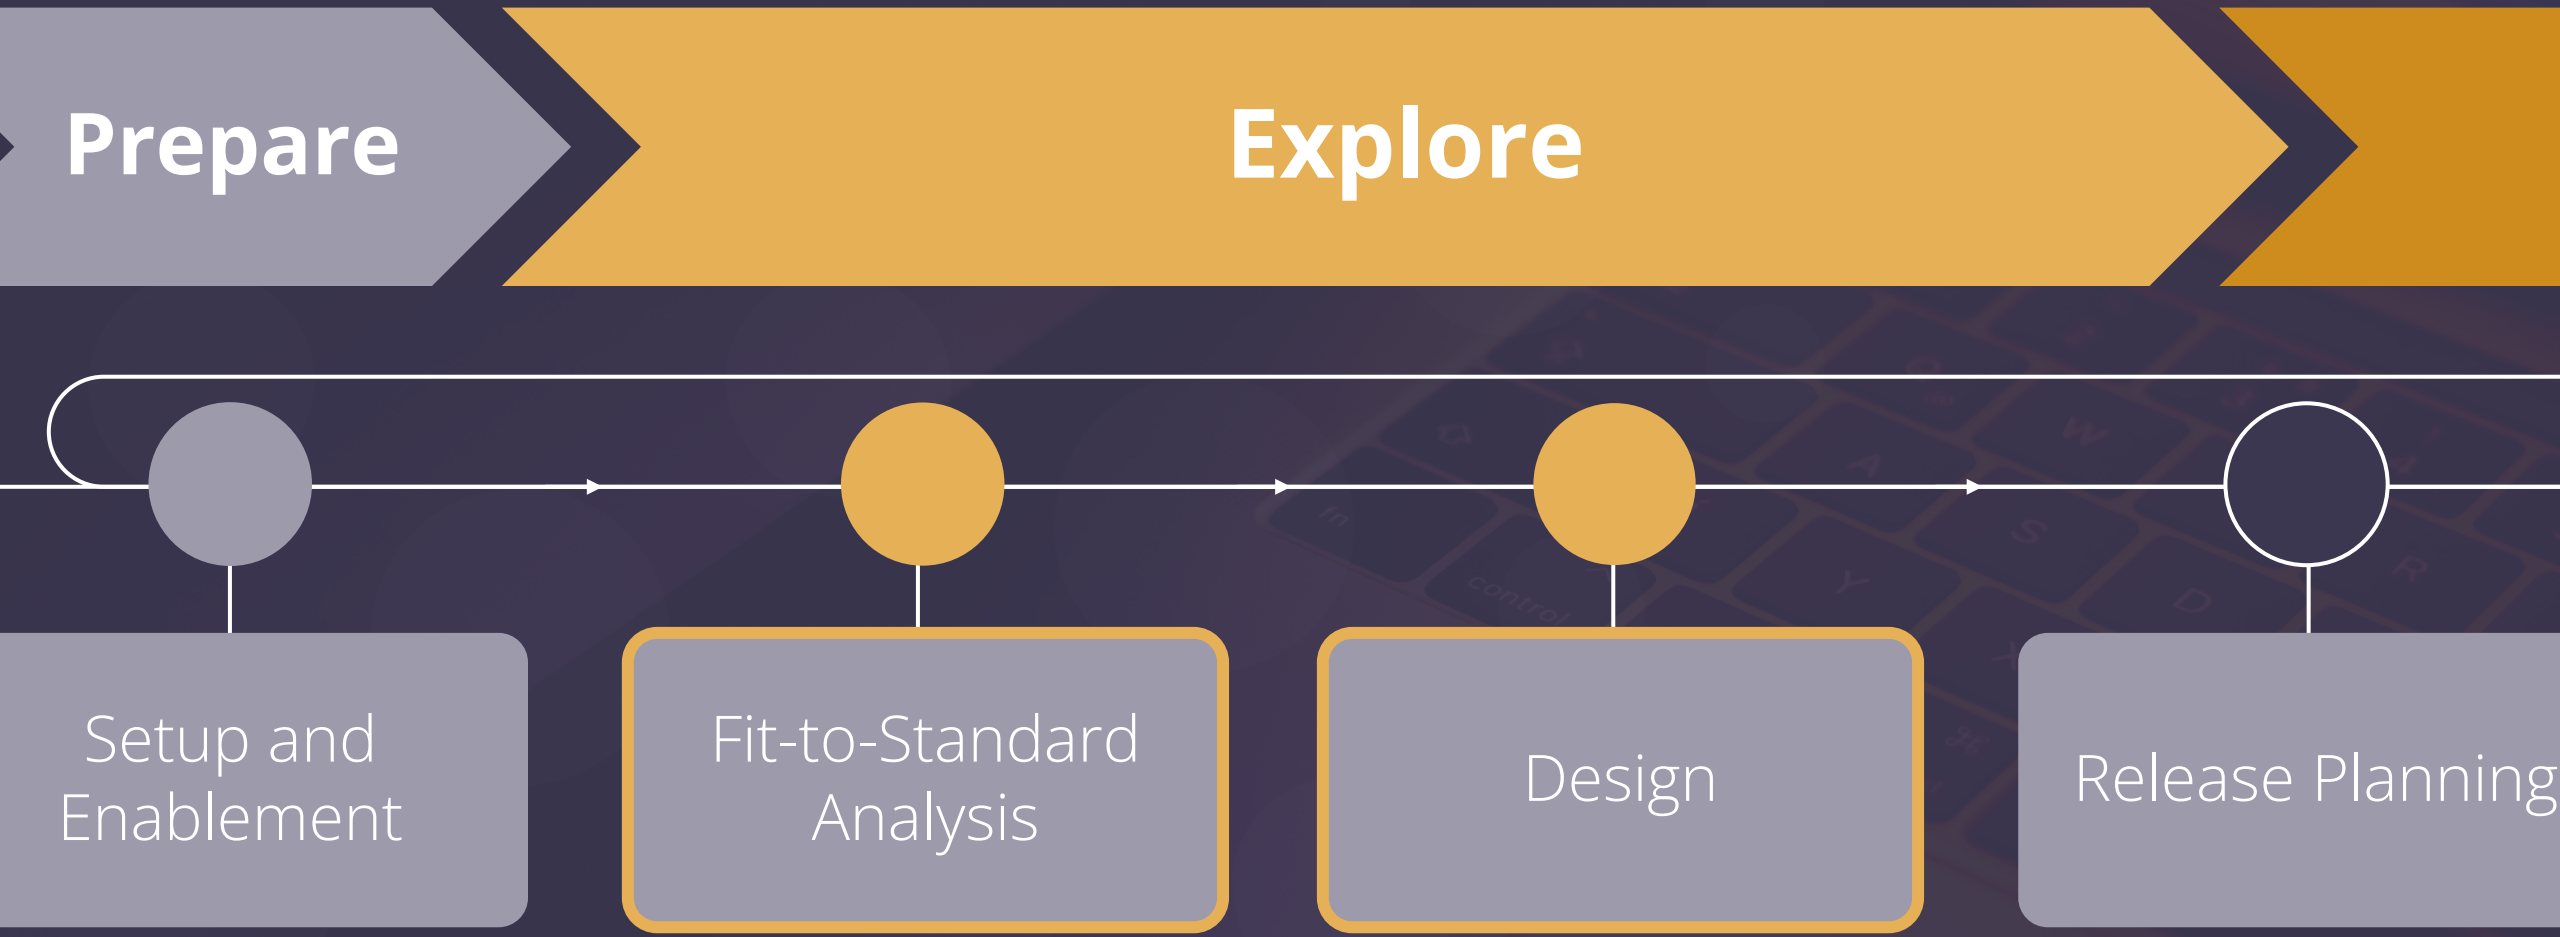
ACTIVATE METHODOLOGY



DALRAE SOLUTIONS



DALRAE SOLUTIONS

The Art of the Possible

Automate Business Document Processing

Achieve Seamless Integration

Create Simple Custom UI Applications

Artificial Intelligence

Data & Analytics

POWERING SAP BTP

DALRAE SOLUTIONS

Weighbridge

User-friendly and augmented by a live stream of data (weight) entry point to processing goods issue process.

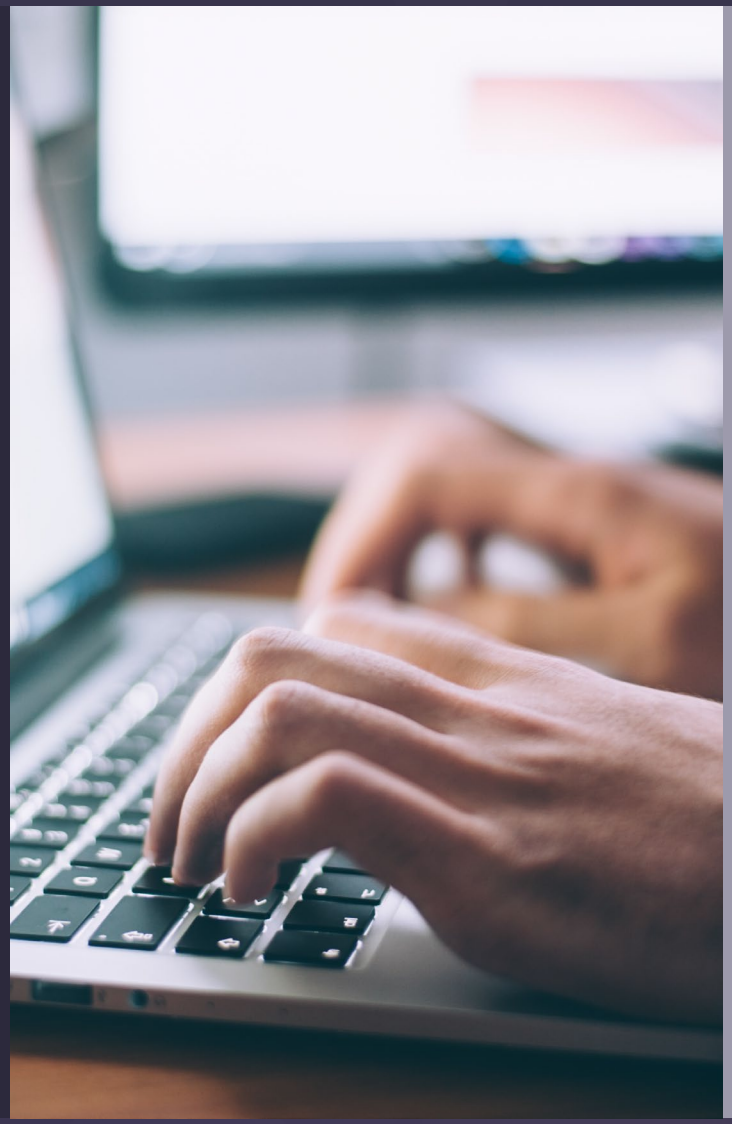
Data is accurate and requires minimum typing.

Once the data reaches the system, relevant documents are posted, updated and automated billing and intercompany billing flow are triggered.

Weighbridge Data → Update and creation of transactional data (Sales order, Goods movement, billing) → Intercompany billing (Sales company and Operations company)

Supplier Invoice Automation

- Suppliers push their invoices to a particular location – comes via email
- PDFs are open and read by automation
- Posted to the ERP
- Matched to the POs in the system
  - or just posted if no PO
- Staged Workflow Approval



Data Extraction

Processing

MEX Asset Management integration

Preventive and Reactive maintenance work scheduling and ordering

Maintenance execution and status reporting

Maintenance order confirmation and invoice processing

Idea

Data analysis and tracking from plant machinery

Weighbridge

Supplier Invoice Automation
