# Session Overview

---

In an era of increasing cyber threats, the symbiotic partnership between Onapsis and Deloitte stands as a robust defense against SAP cyberattacks. Join us for an insightful speaking session, where we delve into the intricacies of safeguarding not only Deloitte itself but also SAP customers from evolving cyber threats targeting SAP landscapes.

## In This Session

---

- Gain practical insights into the methodologies employed by Deloitte to protect its own SAP environment and extend those learnings to benefit SAP customers.
- How Deloitte and Onapsis leverage strategic collaborations to enhance SAP security for customers migrating to RISE and S/4HANA
- Discover the collaborative approach taken with Onapsis to neutralize the threat and strengthen defenses for future resilience.

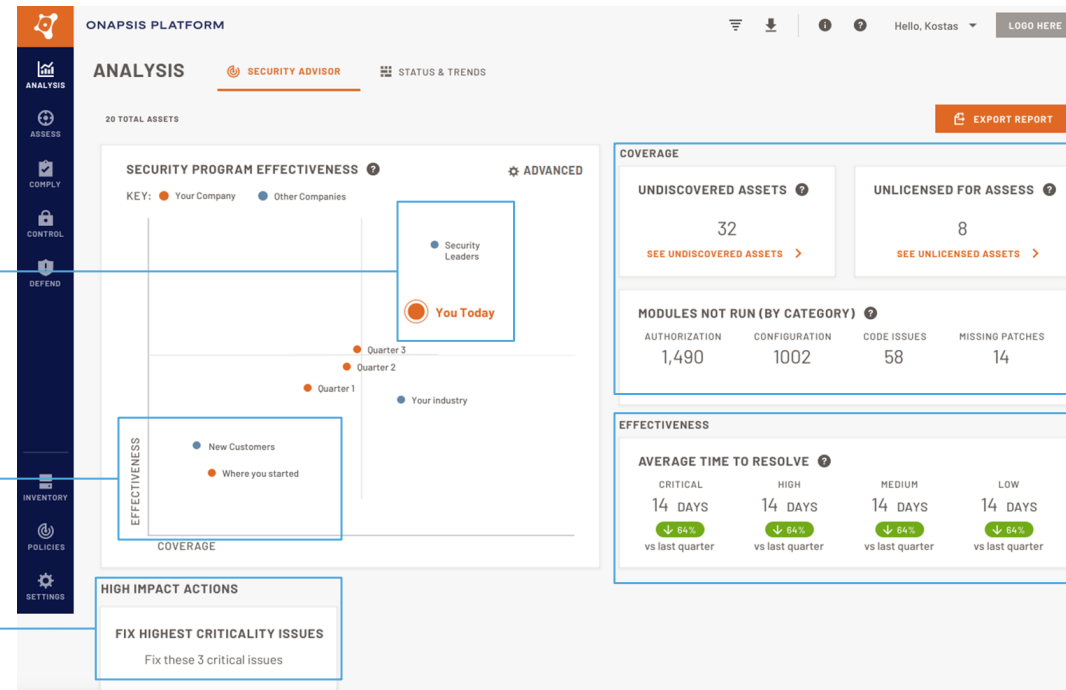

# A 360° View of Your SAP Security Posture

**Benchmark Against  
Other Organizations**

**Easily Communicate  
Security Progress**

**Receive High-Impact  
Custom Recommendations**

**Identify Gaps in Visibility  
and Missing Checks**

**Track & Report on Effectiveness  
of Remediation Efforts**

# Where to Find More Information

---

- **Schedule a Meeting** with the SAP application security leader at SAPinsider. Or **stop by Booth #120** to talk to an expert!

- **Complete ERP Attack Surface Management** – Discover vulnerabilities and get risk-based guidance to better prioritize and respond to the greatest threats to your business.

- **SAP Threat Monitoring & Pre-Patch Protection** – Get real-time threat intel and gain an early warning system for sensitive data access, user behavior anomalies, unauthorized changes, misuse, or cyberattacks targeting critical SAP applications.

- **SAP DevSecOps** – Secure your SAP software development lifecycle from DEV to PRD. Use automation to clean your code and transports. Recognized three years in a row in the Gartner® Magic Quadrant™ for Application Security Testing.
