

The Key to S/4HANA Success: Automating Accounts Payable on SAP BTP

Jan Schulze, Head of Product Management, xSuite

Las Vegas

2024

SAPinsider

In This Session

The due date to migrate to S/4HANA is coming closer. Companies must make this a strategic priority now.

During this session, you will learn more about the Business Technology Platform (BTP) and SAP's clean core strategy.

What We'll Cover

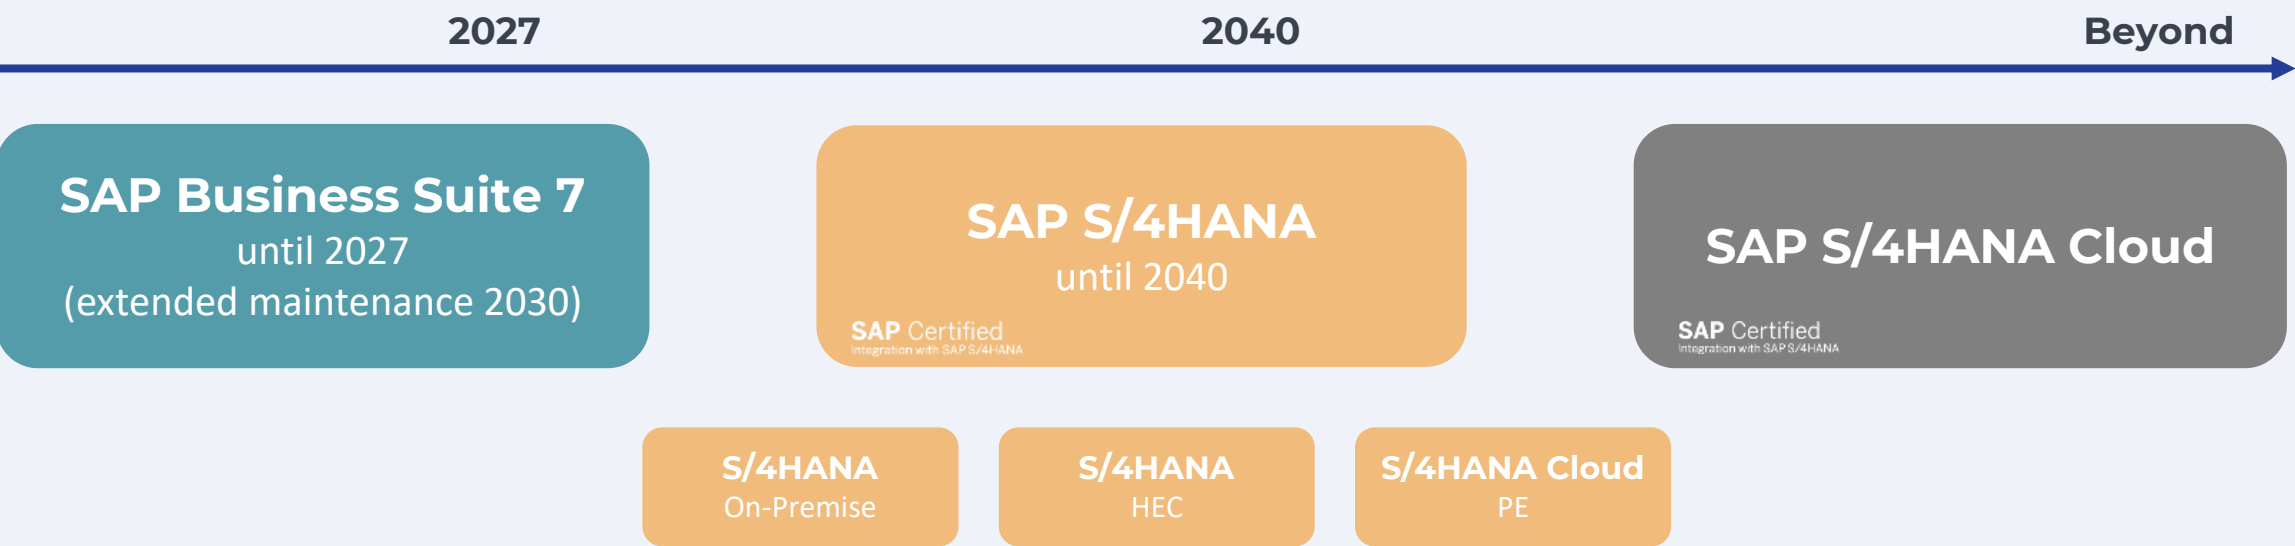

- The journey from SAP ECC to SAP S/4HANA
- The SAP Business Technology Platform (BTP)
- SAP's clean core approach
- Discover xSuite on the SAP BTP
- Explore the intelligent AP workflow by xSuite
- Wrap-Up

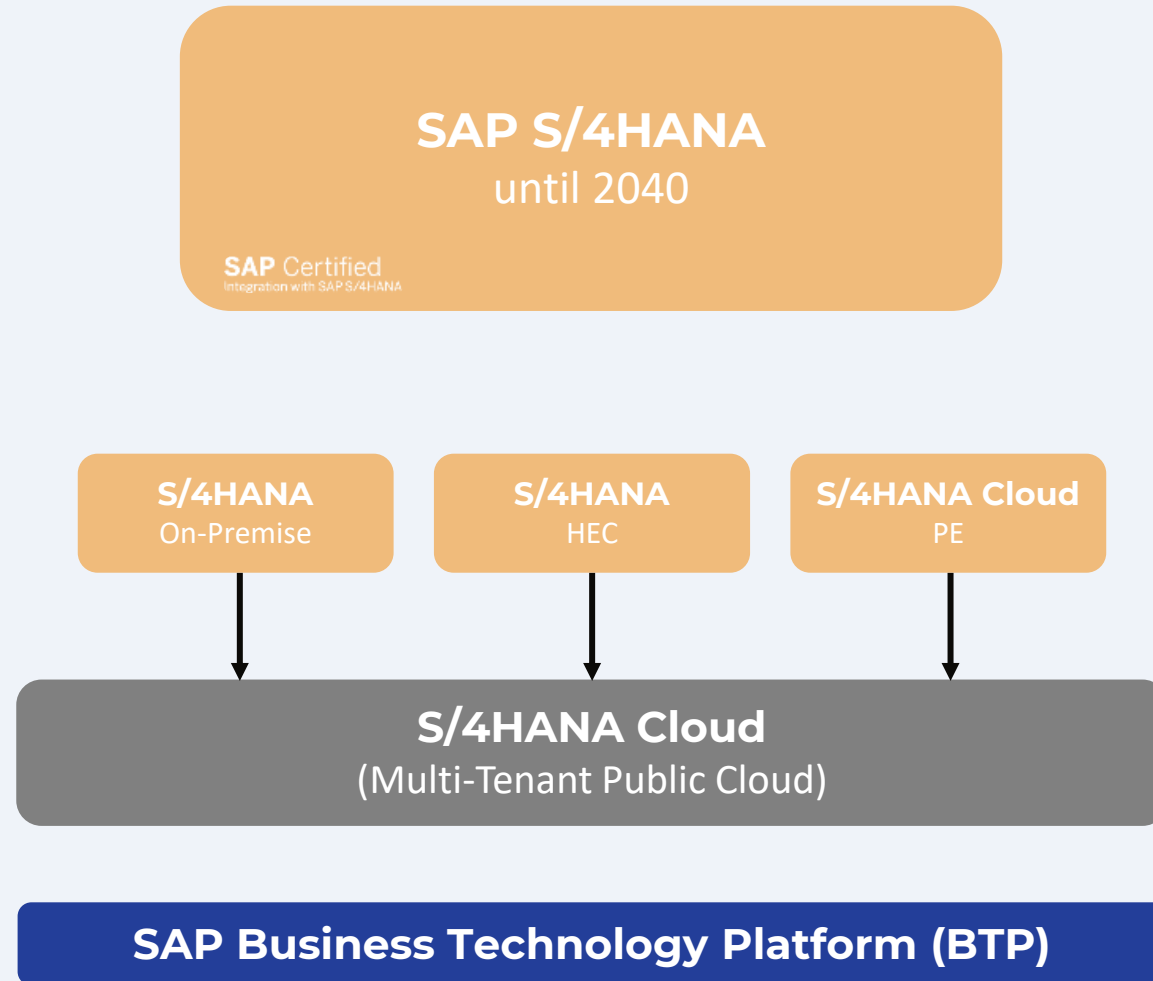

The journey from SAP ECC to SAP S/4HANA

Start of the journey

Final destination

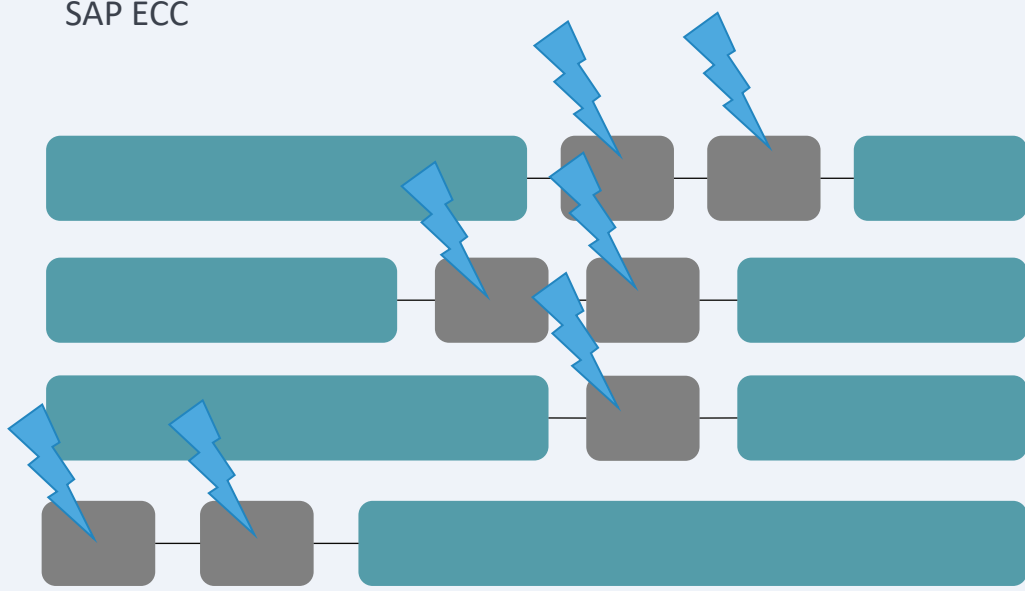

The issue: custom processes

System Upgrade !

On Premise

SAP ECC

Custom Process

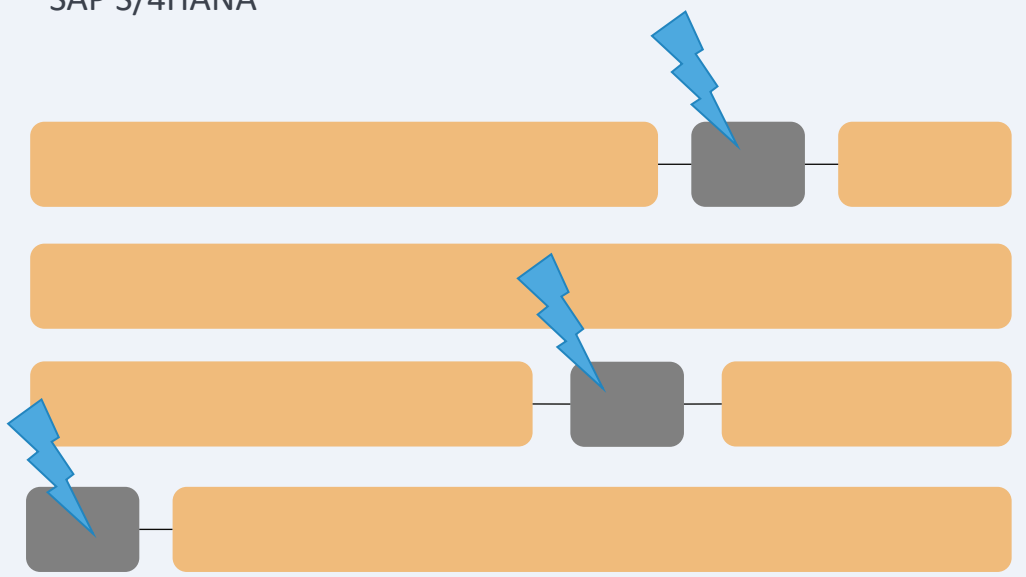

Standard Process

System Upgrade !

Transition to SAP S/4HANA

SAP S/4HANA

Custom Process

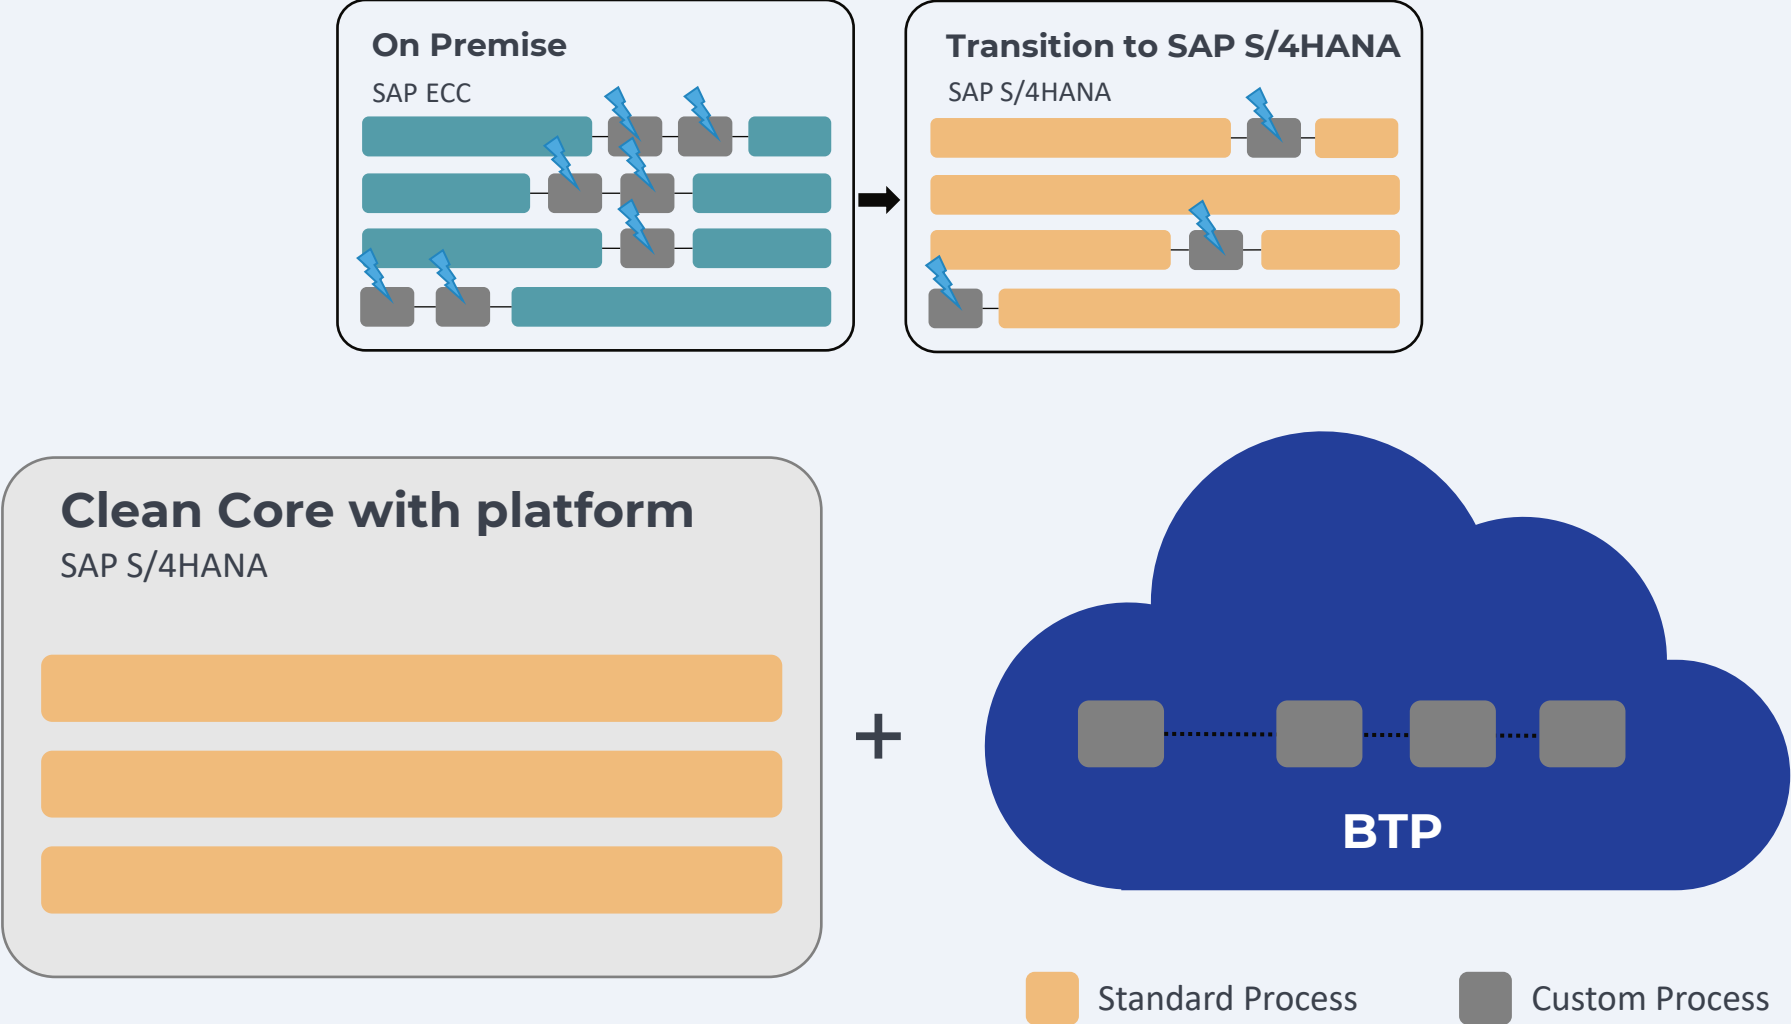

Standard Process

The SAP Business Technology Platform (BTP)

The Business Technology Platform

The Business Technology Platform

Innovation cloud platform (PaaS)

for SAP applications in the cloud
with a multi-cloud approach

Toolkit

for building new cloud solutions or
extending existing SAP system

Business Technology Platform

Application development and automation
Data and analytics
Integration
AI capabilities
in **one unified environment**

Clean Core

Clean Core

Key Benefit

synchronize data processes without disrupting core solutions

Approach

run standard processes on SAP ERP and custom processes on the BTP

Goal

keep the core EMS clean for better maintainability + lower TCO

Blog article: “The importance of a clean core: unveiling the future of intelligent invoice processing”

Key Points to Take Home

- With the end of maintenance for SAP Business Suite 7 in 2027, the due date to migrate to SAP S/4HANA is coming closer
- The ultimate goal for SAP is to migrate its customers to the cloud
- With the cloud, update cycles will become shorter, meaning customers will have access to new features and functionalities more regularly
- Custom code and user exits lead to clunky and complex systems that are difficult to update
- The solution is a clean core → standard processes are run in the ERP while custom processes are hosted on the Business Technology Platform (BTP)
- An invoice solution like xSuite's hosted on the BTP makes your AP processes future-proof and supports you in the long run on your SAP cloud journey

Thank you! Any Questions?

Jan Schulze
