

SAP BTP Overview and Deep Dive: Making Sense of SAP BTP's Five Pillar

Vivien Boche, Senior Director, SAP BTP EMEA

Barcelona

2024

SAPinsider

In This Session

We will get an overview of the SAP BTP

- Why to use it?
- What it is?
- Why is it different?
- 5 pillars
- Who is using it?
- How to get started?

Why are companies using technology platforms?

Why are companies using technology platforms?

Extend and personalise

Accelerate

Optimise and automate

Innovate

Gain insights out of data

Introduce you to SAP Business Technology Platform

How familiar are you with SAP BTP?

Show with your hands ...

Heard about it

**Using some
areas**

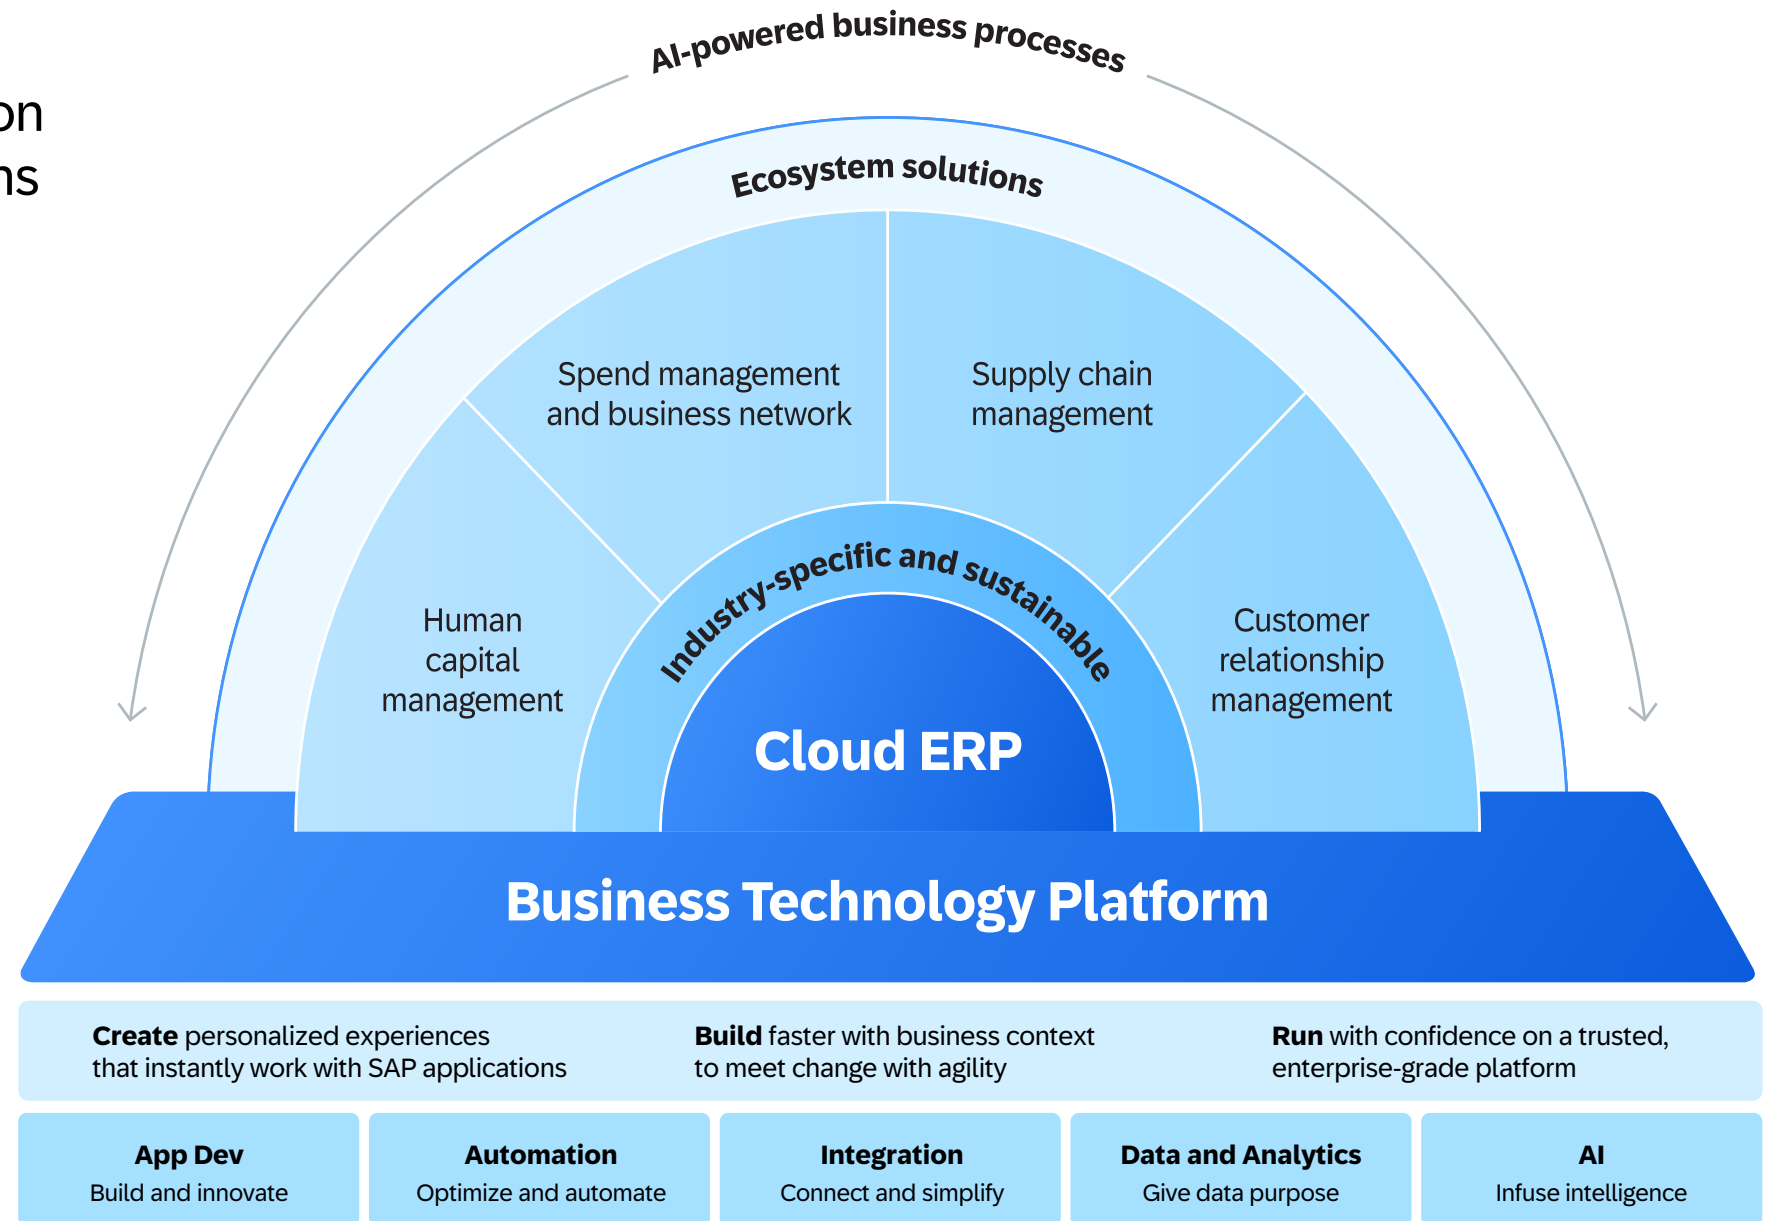

**Using all 5
pillars**

What is the SAP Business Technology Platform?

SAP BTP

Unleash digital innovation
across business functions

SAP BTP is your platform to individualize your business processes

App Dev	Automation	Integration	Data and Analytics	AI
→ Visual low-code/ no-code experience	→ Workflow management	→ Process integration	→ Analytics and planning	→ Pretrained AI models
→ Pro-code tooling	→ Robotic process automation	→ API-led integration	→ Data management	→ Generative AI and AI workload management
→ Digital experience	→ Process monitoring and analytics	→ Event-driven integration	→ Operational database	→ Business data and context
→ DevOps	→ Automated document processing	→ Hybrid integration	→ Data warehouse and data lake	→ Responsible AI
		→ B2B integration		
		→ Data integration		

Why is the SAP BTP different?

SAP BTP Differentiators

SAP Process Orchestration

The screenshot shows the 'Integrated Configuration' window for a receiver. The 'Sender' section is filled with values: Communication Party 'SND_A_TST', Communication Component 'SI_PersonReplicate_OB', Interface 'SI_PersonReplicate_OB', and Namespace 'http://demo.sap.com/pit'. The 'Receiver' section is empty. The 'Inbound Processing' tab is selected, showing a table of configured receivers. Below the table, there are options for 'If No Receiver Is Found, Proceed as Follows:' with radio buttons for 'Error Message', 'Ignore', and 'Select the Following Receiver:'. The 'Select the Following Receiver:' option is chosen, with fields for 'Communication Party' and 'Communication Component'.

Rule	Condition	Communication Party	Communication Component *
