## **Develop SAP Fiori Apps Faster with AI Assistance**

Conrad Bernal Product Manager, SAP

## What We'll Cover

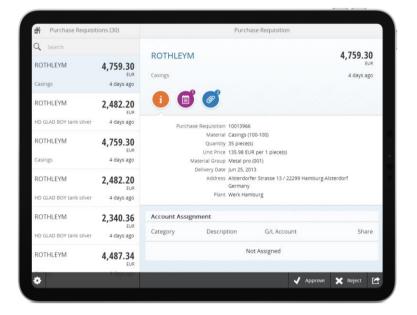

- The current SAP Fiori user experience
- Tools for creating SAP Fiori apps
- Interactive demo: Creating an SAP Fiori elements app with SAP Fiori tools AI
- Wrap-up

## The current SAP Fiori user experience

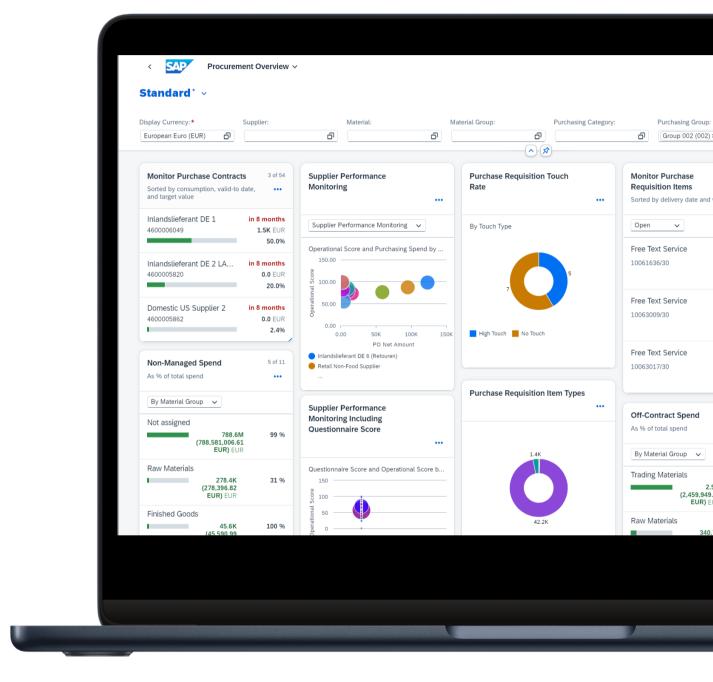

## **SAP Fiori continues to evolve and scale**

### 2013 Tens of SAP Fiori apps

### 2016 Hundreds of SAP Fiori apps

### Today Thousands of SAP Fiori apps

## There are four guiding principles behind the SAP Fiori user experience

Integrated on all devices

Delightful to use

Collaborative for every user

Intelligent in all interactions

## My Home is the starting point for business users in SAP S/4HANA

My Home provides personalized and easy access on any device to all:

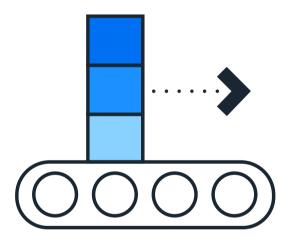

- Relevant To-Dos
- Favorite pages and applications
- Key business insights on tiles and cards

# Tools for creating SAP Fiori apps

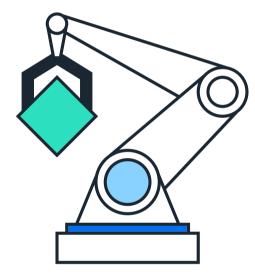

## There are three motivations driving SAP's development tools

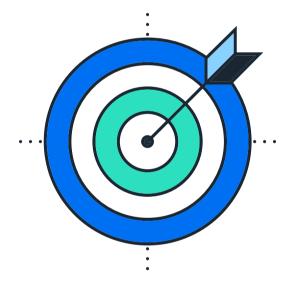

#### **Developer Productivity**

Build SAP Fiori apps faster and more easily than manually coding by using the same framework that SAP uses.

#### **UX Consistency**

Spend more time on the business logic to implement business needs and less time coding the UI since the framework provides the UI.

#### **Enterprise Readiness**

Give your business users the enterprise-grade functionality they expect without having to develop it yourself.

## There are options for delivering the SAP Fiori user experience

<	Efficiency		
		SAP Fiori elements	

FLOORPLANS

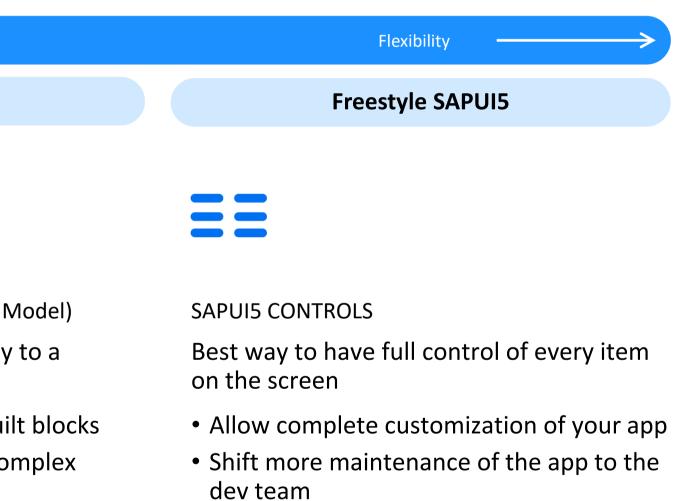

Best way when desired app is close to a standard pattern

- Reduce time, coding to develop and maintain apps
- Match look and feel of apps that SAP ships

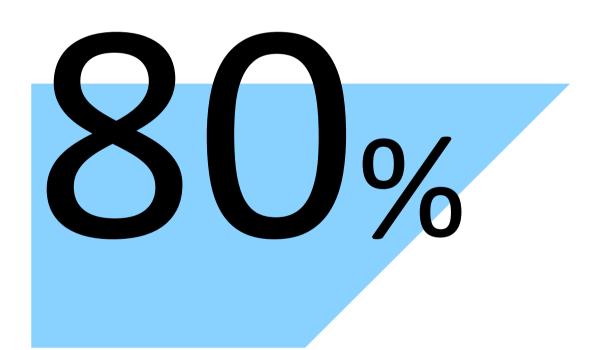

BUILDING BLOCKS (Flexible Programming Model)

Best way to add standard functionality to a custom page

- Speed development by using pre-built blocks
- Combine building blocks for more complex designs

## **Most apps are built using SAP Fiori elements**

*"SAP Fiori elements is the backbone of our Fiori journey, offering a* unified experience and drastically cutting development time. It's the cornerstone for efficient, stable app creation." – SAP Partner

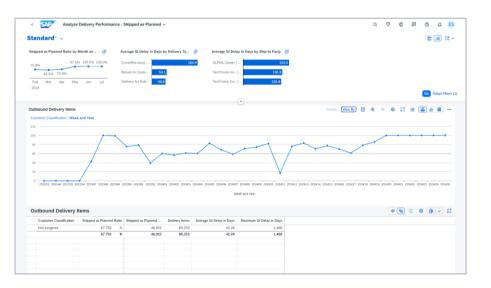

New SAP Fiori elements apps in SAP S/4HANA

## Standardized floorplans boost productivity and ensure enterprise readiness

#### LAB PREVIEW

The following content is a LAB PREVIEW. SAP reserves the right to change its development priorities at any time. Do not make any purchase decisions based on the following demos.

# SAP provides many online resources to learn about SAP Fiori app development

### **Topics pages on the SAP Community**

- <u>SAPUI5</u>
- SAP Fiori elements
- SAP Fiori tools
- SAP Build Code

#### **Other resources**

- SAP Fiori app reference library
- Flexible Programming Model Explorer
- <u>SAPUI5 documentation for SAP Fiori elements</u>
- <u>SAP S/4HANA extensibility guide</u>
- SAP Fiori development newsletter

## Learn from your peers in our monthly development calls

SAP Fiori developer roundtable

2<sup>nd</sup> Wednesday of each month 8am Pacific, 11am Eastern, 17:00 CET

More info: <u>https://community.sap.com/t5/technology-blogs-by-sap/peer-to-peer-learning-at-the-sap-fiori-elements-and-sap-fiori-tools/ba-p/13513361</u>

Sign up:

## **Key Points to Take Home**

- SAP Fiori is SAP's user experience
- You can quickly and easily develop SAP Fiori applications with SAP Fiori elements and SAP Fiori tools
- SAP Fiori elements applications are flexible and can be extended with the Flexible Programming Model or freestyle SAPUI5 development
- SAP Fiori tools AI streamlines app development by generating SAP Fiori elements apps based on business requirements or sketches
- SAP is continuing to invest in AI solutions to make its user and developer experiences even better

## Thank you! Any questions?
