

AI Driven Portfolio Optimization

Exhibit A

At SAPPHIRE 2024, our customer Watco Group presented “How Watco Leverages EPPM in SAP S/4 HANA to Streamline Construction Projects”.

At the session, the Watco described how they replaced multiple stand-alone solutions with an integrated enterprise project and portfolio management (EPPM/SAC Analytics/Field App) solution embedded in SAP S/4HANA. The session explores how Watco used the technology across the lifecycle of capital and customer projects, from project idea through execution and project closeout.

During the session, Platinum DB presented it's EPPM BTP Mobile Field Application, Forecasting x(P&A) project based financial models, EPPM SAC Analytics and EPPP-BTP-ChatGPT Solution.

The EPPM portfolio optimization process overview is provided in Exhibit A.
