

# Scalable, Intelligent ERP Transformation

Connected, integrated and AI-ready in as little as 20 weeks

In today’s fast-moving, AI-driven business landscape, speed, intelligence, and agility are a competitive advantage and business imperative. For high-growth companies navigating this complexity, a scalable and secure enterprise platform is critical.

For scaling companies up to \$5B in annual revenue, SAP and Accenture have joined forces to bring a new suite of packaged ERP service offerings creating a pathway to streamlined business functions and AI-driven insights while enabling a connected, intelligent enterprise.

## Introducing ADVANCE

A modern cloud native solution preconfigured ‘out of the box’.

**AI-powered**  
 Autonomous, AI-driven solutioning and delivery at scale—intelligent, adaptive, and outcome-focused.

**Turnkey**  
 Pre-configured program scope built on best-in-class industry processes, practices, and data models ready to deploy.

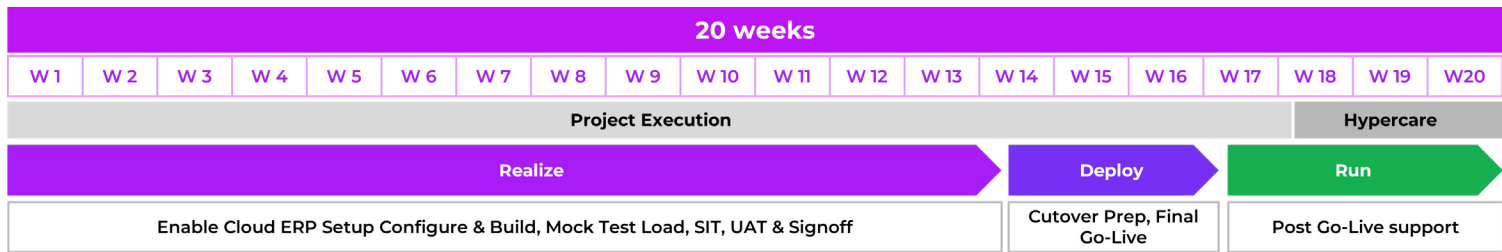

**Right-sized**  
 Proven innovation and solutions tailored to your needs, with transparent pricing for a fast, confident buying experience.

**Specialized**  
 Industry-leading delivery teams focused on medium and large-sized enterprises, ensuring relevance and impact.

Implemented in as little as 20 weeks, ADVANCE offers pre-packaged solutions for speed, ease, and measurable outcomes, empowering organizations to modernize faster, operate smarter, and grow more securely.

## Accelerate the journey into a new era of Enterprise Management
